

May 1, 2020

Edmonton Minor Soccer Association (EMSA) would like to thank all frontline and health care workers for their ongoing effort during this pandemic as well as all Albertans for doing their best to keep the spread of COVID19 in Alberta to a minimum.

The recent announcement by the Government of Alberta regarding the 3-stage plan to relaunch the economy is the direct result of the willingness of all Albertans to follow AHS's leadership and flatten the infection curve more than anticipated.

EMSA is strongly recommending all its members to continue their effort during the next several weeks to insure we progress through the opening stages without major setbacks.

EMSA is also reminding its members that even though the City of Edmonton opened the soccer fields for individual use there is ABSOLUTELY NO ORGANIZED SOCCER ALLOWED (practices or games) at this stage.

Canada Soccer is constantly monitoring the situation across the country and will inform all provincial soccer associations when it is safe to resume organized soccer. While waiting for a decision from Canada Soccer, EMSA will continue to work to prepare for an Outdoor Soccer Season in order to start playing as soon as possible.
